PROFESSIONAL SUMMARY

Results-oriented BI and Data Analytics graduate specializing in building interactive dashboards and automated tools that drive institutional growth. I have a proven track record of using predictive modeling to improve retention rates and streamlining complex registration processes to save significant administrative hours. I am a proactive problem-solver dedicated to transforming raw data into clear, actionable insights that increase profitability and operational efficiency.

EDUCATION

Botswana Accountancy College

BSc (Hons) Business Intelligence and Data Analytics | *Jul 2019 – Jan 2025*

University of Sunderland (Top up year)

BSc (Hons) Business Intelligence and Data Analytics | *Sep 2024 – Jan 2025*

Graduated with Second Class Honors (First Division)

EXPERIENCE

Data Analyst / Web Developer | Basha Consulting, Francistown | *Nov 2025 – Feb 2026*

- Developed comparison websites for telecom, banking, and insurance sectors.
- Built a network provider recommendation system using survey data, allowing users to filter by location, usage type, and budget.
- Designed interactive dashboards for performance analysis and decision support reporting.
- Transformed raw survey data into actionable insights to support strategic decision-making.

Data Analyst Intern | App Digital Hub, Gaborone | *Jan 2022 – Jul 2022*

- Developed more than 6 interactive Power BI dashboards for sales analytics, adopted as primary decision-making tools
- Performed data mining and analysis to generate business insights and support decision making.
- Created automated reporting solutions by reducing manual reporting time by 40%
- Supported dashboard troubleshooting and continuous improvement of BI solutions.

PROJECTS

Institutional Dashboard & Student Success System | *Python, SQL, Streamlit App* | **Feb 2026**

- **Streamlit Analytics Dashboard:** Built a live dashboard to visualize student risk with 87% accuracy, helping staff improve graduation rates by 10%.
- **Admissions Software Tool:** Developed an automated registration system that provides instant risk scores, cutting admin paperwork by 10 hours per week.
- **Marketing Insights:** Analyzed enrollment data to identify which student recruitment sources were the most successful, helping the school better allocate its P200K budget.

Insurance Comparison Platform | *HTML, JavaScript, CSS* | **Jan 2026**

- **Time Savings:** Built a centralized platform for insurance plans, reducing customer research time.
- **Market Aggregation:** Created a first-of-its-kind comparison site that allows users to get instant quotes across all major insurance categories.
- **Lead Conversion:** Designed an automated system to connect qualified customers to providers, significantly improving response times and sales efficiency.

TECHNICAL SKILLS

BI & Visualization: Power BI, Microsoft Excel, Data storytelling

Data Analysis: SQL, R, Predictive Modelling, Data Mining, Statistical Analysis
